

The Emergency Medicine Basic Research Skills (EMBRs) is a 10-day, 2-session program that provides a broad overview of research basics.

Participants learn how to identify clinical research opportunities and become familiar with clinical research and outcomes. The course also includes an introduction to statistics and sessions on publishing and presenting your research. Participants with the best grant application receive an EMF/EMBRs grant to carry out their research project.

This basic-level course targets:

- ▶ Junior faculty with limited research experience
- ▶ Physicians in academic and community centers who are interested in research but have little training in research basics
- ▶ Physicians who have as part of their duties involvement in research, including mentoring young researchers
- ▶ Fellows in non-research fellowships

Session 1 Dec. 2 – 7, 2019

Session 2 April 14 – 16, 2020

ACEP Headquarters • Dallas, TX

ACEP members ..\$1950

Nonmembers\$2150

This course carries AMA PRA Category 1 Credit(s)™
