The data submission period for the 2019 Merit-based Incentive Payment System (MIPS) closed on April 30, 2020. The Centers for Medicare & Medicaid Services (CMS) is currently in the process of reviewing the data submitted.

For the MIPS 2019 performance period, CMS added flexibilities to allow the healthcare delivery system to focus on the 2019 Novel Coronavirus (COVID-19) response. The automatic extreme and uncontrollable circumstances policy was extended to all MIPS eligible clinicians. MIPS eligible clinicians who were not able to submit any 2019 MIPS data by April 30, 2020 will receive a neutral payment adjustment for the 2021 MIPS payment year.

Preliminary Feedback on 2019 MIPS Data Submission Now Available

If you submitted data through the Quality Payment Program, you are now able to review your 2019 MIPS preliminary performance feedback data. Please keep in mind that this is not your final score or feedback. Your final score and feedback will be available in July 2020. Between now and July, your score could change based on the following:

- All-Cause Readmission Measure for the Quality performance category
- Claims measures to include the 60-day run out period
- CAHPS for MIPS Survey results
- Reweighting based on COVID-19 Extreme and Uncontrollable Circumstances Applications (submitted in April)
- Quality and Cost performance category scores from facility-based measurement
- Improvement Study participation and results
- Creation of performance period benchmarks for Quality measures that didn't have a historical benchmark

You will be able to access preliminary and final feedback with the same HCQIS Authorization Roles and Profile (HARP) credentials that allowed you to submit and view your data during the submission period. Don't have a HARP account? Start the process now! Refer to OPP Access User Guide and this video for step-by-step instructions.
