

Ms. Finch joined ACEP in September 2021 following a two-decade professional journey in acute and specialty specific nursing practice. She holds a Masters of Management from Wilmington University. As ACEP's Sr. Quality Manager of Quality Improvement, she is actively responsible for the oversight, deployment, and implementation of all Quality specific projects and initiatives. Her most recent projects include Rapid Implementation and Assessment of Emergency Department Quality Improvement Interventions for Stroke Care, Meeting Patients at the Front Door: Initiating OUD care in the Nation's EDs, along with Initiating Anticoagulation in At-Risk Patients with Atrial Fibrillation in our Nation's Emergency Departments.
