| • Section Awards | Wesley Zeger, DO, FACEP |
| ○ Longevity Award | |
| ○ Service Award | |
| • Adjourn to Networking and Section Hall Crawl | |

Major Points Discussed

Dr. Zeger welcomed everyone to the meeting and introduced the Ceribell sponsor, Dr. Kumar, who shared his hospital experience implementing point-of-care Electroencephalogram (EEG). Dr. Kumar discussed the advantages of expedited diagnoses, clinical outcomes, and the impact on patient care. Dr. Zeger introduced the second sponsor, Dr. Nguyen from Ambience Healthcare, who presented an Emergency Department (ED) case study demonstrating the application of ambient AI in healthcare environments and its ability to provide assistance and insights.

Dr. Schmitz, the speaker for the Accreditation Program, was introduced. Dr. Schmitz presented on Emergency Department Accreditation, emphasizing the significance of promoting quality, safety, workforce improvement, and addressing current concerns within the Emergency Department (ED).

Dr. Zeger introduced Dr. Venkatesh for the E-QUAL presentation. Dr. Venkatesh explained that the mission is to engage emergency physicians and leverage emergency departments to enhance clinical outcomes, coordinate care, and reduce costs.

Following the introductions, Dr. Zeger announced the new section operational guidelines. In June 2024, the ACEP Board of Directors approved a standardized template for Section Operational Guidelines to ensure consistency and optimize efficiency. The section members voted in favor of the new operational guidelines.

New criteria and a revised rubric were proposed for the medical director's longevity award. There were no applicants this year for the awards. With no further business to discuss, the meeting was adjourned, allowing attendees to participate in the Section Crawl.
